DETAILED ACTION

Allowable Subject Matter

1. **Claims 1-10 are allowed.**
2. The following is an examiner's statement of reasons for allowance:

Claims 1-10 are allowable because the prior art fails to disclose or make obvious, either singly or in combination, a tilt switch comprising, in addition to the other recited features of the claim, "a modular insert body including an inner peripheral wall disposed between said entry and exit walls to confine an accommodation chamber which extends in the longitudinal direction to communicate with said entry hole, and which has transit route that extends to intersect the light path at an intersection".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Sano et al. (Patent No. US 6,011,254) discloses an photoelectric tilt-detection sensor.

Art Unit: 2878

Hjertman et al. (Patent No. US 6,392,223) discloses a tilt sensing device.
